

My Childs Homework

Show My Homework makes it easy for you to track and monitor your children's homework. Log into your account to get started!

From your home page you will be able to see any student accounts linked to you. It will show you when your child last logged into Show My Homework and the recovery PIN they can use to access their account in the event of lost login details.

From this menu you will also be able to reach the Homework, Gradebook, and Notice board pages for each student associated with your account.

To see homework for the children connected to your account, simply click on "Homework" from the menu under the student whose to-do list you wish to view.

You will then be taken to the Homework page. On this page, homework is sorted into two tabs: Recent and Upcoming. In the Recent page, tasks with the nearest due dates will be displayed. In the Upcoming page, homework which is due further in the future will appear. If your child has submitted the homework the task will display and any graded homework will display a score.

To search for a specific assignment, use the search box and click on the corresponding title to view details of the assignment.
