

SETTLEMENTS KNOWLEDGE ORGANISER

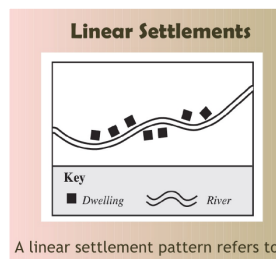

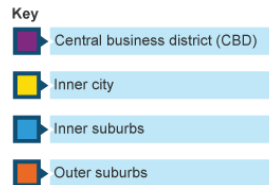

KEY QUESTIONS

How have settlements changed over time?	What are the problems of settlement growth?	How are some cities trying to be sustainable?
The different patterns settlements can be arranged in.	To describe the hazards of a volcano.	To name and label the main features of a volcano.

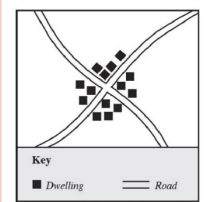

KEY WORDS

Settlement	Place where people live.
Site	Land that a settlement is built on.
Land use model	Shows how the land in a town or city is used.
Sustainable	Thinking about future generations e.g. protecting the environment.
Nuclear pattern	Buildings are grouped together for protection.
Linear Pattern	Buildings are built in a line usually along a road or river.
Slums	A squalid and overcrowded urban street or district inhabited by very poor people.
Parasitic cone	A secondary vent in a volcano.

DIAGRAMS

Nucleated Settlements

A nucleated settlement pattern refers to the grouping of many houses around a centre called a nucleus.
