

St Monica's RC High School

Child Protection and Safeguarding Policy Framework

Start Date	September 2019
Renewal Date	September 2020

Mission Statement

St. Monica's is a Catholic community working in partnership with families, schools and parishes to teach the Catholic faith as a way of life. We provide a caring, supportive environment where everyone is of equal worth. Jesus Christ is central to our school and our main aim is that everyone can develop their God given talents and gifts to the full, while growing in faith through prayer and service.

The Safeguarding Team

The designated person for Safeguarding (DSL) is Mrs E Keenan.

Deputy DSL's are: Mrs J Davies + Mr M Kehoe

The Link Board Member for Safeguarding is Mrs Pauline Baker

1. Ethos statement

We recognise the moral and statutory responsibility placed on all staff to safeguard and promote the welfare of all children. We aim to provide a safe and welcoming environment, underpinned by a culture of openness where both children and adults feel secure, are able to raise concerns and believe they are being listened to, and that appropriate action will be taken to keep them safe.

2. Introduction

Safeguarding and promoting the welfare of children is **everyone's** responsibility. **Everyone** who comes into contact with children and their families has a role to play. In order to fulfil this responsibility effectively, all professionals should make sure their approach is child-centred. This means that they should consider, at all times, what is in the **best interests** of the child.

(Keeping Children Safe in Education 2019)

The IEB recognises the need to ensure that it complies with its duties under legislation and this policy has regard to statutory guidance, Keeping Children Safe in Education (KCSIE), Working Together to Safeguard Children and locally agreed inter-agency procedures put in place by Bury Safeguarding Children Board.

This policy will be reviewed annually, as a minimum, and will be made available publicly via the school website or on request.

Safeguarding and promoting the welfare of children is defined as:

- protecting children from maltreatment;
- preventing impairment of children's health or development;
- ensuring that children grow up in circumstances consistent with the provision of safe and effective care;
- taking action to enable all children to have the best outcomes.

This policy is for all staff, parents, governors, volunteers and the wider school community. It forms part of the child protection and safeguarding arrangements for our school and is one of a suite of policies and procedures which encompass the safeguarding responsibilities of the school.

This policy should be read and followed in conjunction with the school's Code of Conduct/Staff Professional Expectation Policy (including Acceptable Use of ICT), Safer Recruitment Policy, Disclosure Policy, Social Media / E-Safety Policy and Peer on Peer abuse Policy.

3. The aims of this policy are to:

- Provide staff with a framework to promote and safeguard the wellbeing of children and young people and ensure that they understand and meet their statutory responsibilities
- Ensure consistent good practice across the school.

The IEB expects that all staff will know and understand this child protection and safeguarding policy and their responsibility to implement it. Staff must, as a minimum, have read and understand Part One of KCSIE.

The IEB will ensure that arrangements are in place for all staff members to receive appropriate safeguarding and child protection training which is regularly updated.

Compliance with the policy will be monitored by the Headteacher, designated safeguarding lead (DSL) and named safeguarding board member.

4. Statutory framework

Section 175 of the Education Act 2002 in the case of maintained schools place a statutory duty on governing bodies and proprietors to have policies and procedures in place that safeguard and promote the welfare of children and young people who are pupils of the school which must have regard to any guidance given by the Secretary of State.

A Local Safeguarding Children Board (LSCB) must be established for every local authority area¹. The LSCB has a range of roles and statutory functions including developing local safeguarding policy and procedures and scrutinising local arrangements.

In Bury, all professionals including staff in schools should work in accordance with the multi-agency procedures developed by the Bury Safeguarding Children Board (BSCB) which can be found on their website at:

<http://www.safeguardingburychildren.org/>

5. Key roles and responsibilities

The IEB has a legal responsibility to make sure that there are appropriate policies and procedures in place in order for appropriate action to be taken in a timely manner to safeguard and promote children and young people's welfare, and to monitor that the school complies with them. The IEB should also ensure that the policy is made available to parents and carers by publishing this on the school website or in writing if requested.

The IEB will ensure that the school contributes to multiagency working in line with statutory guidance Working Together to Safeguard Children and that the school's safeguarding arrangements take into account the procedures and practice of the local authority.

It is the responsibility of the IEB to ensure that staff and volunteers are properly vetted to make sure they are safe to work with the pupils who attend our school and that the school has procedures for appropriately managing allegations of abuse made against members of staff (including the headteacher and volunteer helpers) in line with the statutory guidance set out in Part 4 of KCSIE.

The IEB will ensure that there is a named board member for safeguarding, a Designated Safeguarding Lead (DSL) who has lead responsibility for safeguarding and child protection, and a designated teacher to promote the educational achievement of children who are looked after or previously looked after, and will ensure that these people have the appropriate training.

The IEB will inform BSCB annually about the discharge of their safeguarding duties by completing the 175 safeguarding self-assessment audit.

Designated Safeguarding Lead (DSL)

The DSL should take lead responsibility for safeguarding and child protection (**including online safety**). This should be explicit in the role-holder's job description. (The broad areas of responsibility and activities related to the role of the DSL are set out in Annex B of KCSIE) and the DSL will fulfil those responsibilities and carry out those activities whenever necessary. It is a matter for individual schools and colleges as to whether they choose to have one or more deputy designated safeguarding leads. Any deputies should be trained to the same standard as the designated safeguarding lead. Whilst activities can be delegated to the deputies, the ultimate lead

¹ Please note that in accordance with Working Together to Safeguard Children 2018, Bury Safeguarding Children Board will be working towards transition to the new Safeguarding Partner Arrangements. This policy will need to be revised to reflect the new arrangements when they are published.

responsibility for safeguarding and child protection remains with the designated safeguarding lead, this cannot be delegated.

The DSL will be from the school's SLT and have the appropriate status and authority to carry out the duties of the post.

The DSL and any alternate DSLs will be expected to:

- Liaise with the local authority and work with other agencies in line with Working Together to Safeguard Children.
- Be available during school hours for staff to discuss any safeguarding concerns. The DSL will make arrangements for adequate and appropriate cover arrangements for any out of hours/out of term time activities.
- Lead on liaising with other agencies and setting up inter-agency assessment where early help is appropriate
- Liaise as necessary with the Local Authority Personal Adviser appointed to support any care leavers attending the school regarding any issues of concern affecting them.
- Undergo training to provide them with the knowledge and skills to carry out the role. This training will be updated every two years.

Headteacher

The headteacher will ensure that the policies and procedures adopted by the governing body are fully implemented and that sufficient resources and time are allocated to enable staff members to discharge their safeguarding responsibilities.

All staff involved in recruiting staff or volunteers

All staff involved in recruiting staff or volunteers must read, understand and act in accordance with Part 3 of KCSIE (Safer Recruitment).

All staff

All staff have a responsibility to provide a safe environment in which children can learn.

All staff will be expected to:

- Read and ensure they understand Part One of KCSIE.
- Familiarise themselves with the systems within school which support safeguarding, including the safeguarding and child protection policy, the code of conduct/staff behaviour policy, the safeguarding response to children who go missing from education, and the role of the DSL (including the identity of the DSL and any deputies).
- To be aware of the different types of abuse and neglect so that they are able to identify cases of children who may be in need of help or protection.
- To know what to do if a child tells them he/she is being abused or neglected.
- To know of the process for making referrals to children's social care in the absence of their DSL.
- Be aware of and understand the early help procedure and their role within it. This includes providing support as soon as a problem emerges, liaising with the DSL, and sharing information with other professionals in order to support early identification and assessment, focussing on providing interventions to avoid escalation of worries and needs. In some cases, staff may be asked to act as the lead professional in undertaking an early help assessment.
- Act immediately on any concerns they have about a child's welfare.

Any child may benefit from early help, but all school and college staff should be particularly alert to the potential need for early help for a child who:

- is disabled and has specific additional needs

- has special educational needs (whether or not they have a statutory education, health and care plan)
- is a young carer
- is showing signs of being drawn in to anti-social or criminal behaviour, including gang involvement and association with organised crime groups
- is frequently missing/goes missing from care or from home
- is misusing drugs or alcohol themselves
- is at risk of modern slavery, trafficking or exploitation
- is in a family circumstance presenting challenges for the child, such as substance abuse, adult mental health problems or domestic abuse
- has returned home to their family from care
- is showing early signs of abuse and/or neglect
- is at risk of being radicalised or exploited
- is a privately fostered child

Knowing what to look out for is vital to the early identification of abuse and neglect. If staff are unsure, they should always speak to the DSL (or deputy). If in exceptional circumstances the DSL (or deputy) is not available, this should not delay appropriate action being taken. Staff should consider speaking to a member of the senior leadership team and/or take advice from children's social care MASH Team: 0161 253 5678. In these circumstances, any action taken should be shared with the DSL as soon as is practically possible.

6. Training

The IEB will ensure that all staff receive appropriate safeguarding and child protection training which is regularly updated and in line with guidance from BSCB. In addition, all staff members will receive regular safeguarding and child protection updates (for example, via email, ebulletins, staff meetings) as required, but at least annually, to provide them with relevant skills and knowledge to safeguard children effectively.

At least one member of any recruitment interview panel must have completed safer recruitment training.

7. All new staff

New staff members will undergo safeguarding and child protection training at induction. This will include training on the school's safeguarding and child protection policy, the code of conduct/staff professional expectations policy and the role of the designated safeguarding lead. Copies of the school's policies, procedures and Part One of KCSIE will be provided to new staff at induction.

The Headteacher will ensure that an accurate record of safeguarding training undertaken by all staff is maintained and updated regularly.

8. Recognising concerns - signs and indicators of abuse

All staff should be aware that abuse, neglect and safeguarding issues are rarely standalone events that can be covered by one definition or label. In most cases, multiple issues will overlap with one another.

Abuse is defined as a form of maltreatment of a child. Somebody may abuse or neglect a child by inflicting harm or by failing to act to prevent harm. Children may be abused in a family or in an institutional or community setting by those known to them or, more rarely, by others. Abuse can take place wholly online, or technology may be used to facilitate offline abuse. They may be abused by an adult or adults or another child or children.

Physical abuse: a form of abuse which may involve hitting, shaking, throwing, poisoning, burning or scalding, drowning, suffocating or otherwise causing physical harm to a child. Physical harm may also be caused when a parent or carer fabricates the symptoms of, or deliberately induces, illness in a child.

Emotional abuse: the persistent emotional maltreatment of a child such as to cause severe and adverse effects on the child's emotional development. It may involve conveying to a child that they are worthless or unloved, inadequate, or valued only insofar as they meet the needs of another person. It may include not giving the child opportunities to express their views, deliberately silencing them or 'making fun' of what they say or how they communicate. It may feature age or developmentally inappropriate expectations being imposed on children. These may include interactions that are beyond a child's developmental capability as well as overprotection and limitation of exploration and learning, or preventing the child participating in normal social interaction. It may involve seeing or hearing the ill-treatment of another. It may involve serious bullying (including cyberbullying), causing children frequently to feel frightened or in danger, or the exploitation or corruption of children. Some level of emotional abuse is involved in all types of maltreatment of a child, although it may occur alone.

Sexual abuse: involves forcing or enticing a child or young person to take part in sexual activities, not necessarily involving a high level of violence, whether or not the child is aware of what is happening. The activities may involve physical contact, including assault by penetration (for example rape or oral sex) or non-penetrative acts such as masturbation, kissing, rubbing and touching outside of clothing. They may also include non-contact activities, such as involving children in looking at, or in the production of, sexual images, watching sexual activities, encouraging children to behave in sexually inappropriate ways, or grooming a child in preparation for abuse (including via the internet). Sexual abuse is not solely perpetrated by adult males. Women can also commit acts of sexual abuse, as can other children. The sexual abuse of children by other children is a specific safeguarding issue in education (See section 7: Specific safeguarding issues and Appendix A KCSIE 2019)

Neglect: the persistent failure to meet a child's basic physical and/or psychological needs, likely to result in the serious impairment of the child's health or development. Neglect may occur during pregnancy as a result of maternal substance abuse. Once a child is born, neglect may involve a parent or carer failing to: provide adequate food, clothing and shelter (including exclusion from home or abandonment); protect a child from physical and emotional harm or danger; ensure adequate supervision (including the use of inadequate care-givers); or ensure access to appropriate medical care or treatment. It may also include neglect of, or unresponsiveness to, a child's basic emotional needs.

(Source Keeping Children Safe in Education)

9. Specific safeguarding issues

All staff should have an awareness of safeguarding issues that can put children at risk of harm. Behaviours linked to issues such as of drug taking, alcohol abuse, deliberately missing education and sexting (also known as youth produced sexual imagery) put children in danger.

All staff should be aware that safeguarding issues can manifest themselves via peer on peer abuse. This is most likely to include, but may not be limited to:

- bullying (including cyberbullying)

- physical abuse such as hitting, kicking, shaking, biting, hair pulling, or otherwise causing physical harm
- sexual violence and sexual harassment
- sexting (also known as youth produced sexual imagery) [Overview of Sexting Guidance.pdf](#) ; and
- initiation/hazing type violence and rituals
-

All staff should be clear about the school’s policy and procedures with regards to peer on peer abuse.

Safeguarding incidents and/or behaviours can be associated with factors outside the school and/or can occur between children outside the school. All staff, especially the DSL (or deputy), should be considering the context within which such incidents and/or behaviours occur. Assessments of children should consider whether wider environmental factors are present in a child’s life that are a threat to their safety and/or welfare. It is important that staff provide as much information as possible as part of the referral process.

Further information about specific forms of abuse and safeguarding issues can be found in Appendix A KCSIE 2019. All staff should familiarise themselves with this.

10. Peer on peer abuse

In most instances, the conduct of pupils towards each other will be covered by the behaviour policy. However, some allegations may be of such a serious nature that they may raise safeguarding concerns. The school is clear that abuse is abuse and should never be tolerated or passed off as “banter”, “just having a laugh” or “part of growing up”.

Peer on peer abuse can manifest itself in many ways and may include sexual violence and sexual harassment, physical abuse such as hitting, kicking, shaking, biting, hair pulling, or otherwise causing physical harm, sexting (also known as youth produced sexual imagery), initiation/hazing type violence and rituals.

Any incidents of serious peer on peer abuse will be managed according to school procedures which detail measures to minimise the risk of peer on peer abuse, how allegations of peer abuse will be recorded, investigated and dealt with, and processes for how victims, perpetrators and any other child affected by peer on peer abuse will be supported.

11. Online safety

The use of technology has become a significant component of many safeguarding issues, for example, technology often provides the platform that facilitates child sexual exploitation, radicalisation and sexual predation.

There are three categories of risk:

- **Content:** being exposed to illegal, inappropriate or harmful material, for example, pornography, fake news, racist or radical and extremist views;
- **Contact:** being exposed to harmful online interaction with other users, for example, commercial advertising as well as adults posing as children or young adults; and
- **Conduct:** personal online behaviour that increases the likelihood of, or causes, harm, for example, making, sending and receiving explicit images, or online bullying.

The governing body/proprietor has had due regard to the additional information and support set out in KCSIE and will ensure that the school has a whole school approach to online safety and has a clear policy on use of communications technology in school.

12. Curriculum

The IEB will ensure that children and young people are taught about safeguarding, including online safety, through teaching and learning opportunities as part of a broad and balanced curriculum. This is in order to help children stay safe, recognise when they do not feel safe and identify who they might or can talk to.

This may include covering relevant issues through Relationships Education and Relationships and Sex Education (also known as Sex and Relationship Education) and through Personal, Social, Health and Economic education (PHSE).

The IEB will also ensure there is a comprehensive curriculum response to e-safety issues, enabling children and young people and their parents to learn about the risks of new technologies, communication and social media and how to use these responsibly.

The school will ensure that there are appropriate filters and monitoring systems in place to safeguard children and young people from potentially harmful and inappropriate online material.

13. Procedures

If staff notice any indicators of abuse/neglect or signs that a child or young person may be experiencing a safeguarding issue they should use the school's recording procedures for safeguarding concerns (using CPOMS) and raise with the DSL without delay.

14. What to do if you are concerned.

If a child makes an allegation or disclosure of abuse against an adult or other child or young person, it is important that you:

- Stay calm and listen carefully;
- Accept what is being said;
- Allow the child/young person to talk freely – do not interrupt or put words in the child/young person's mouth;
- Only ask questions when necessary to clarify, do not investigate or ask leading questions;
- Reassure the child, but don't make promises which it might not be possible to keep;
- Do not promise confidentiality;
- Emphasise that it was the right thing to tell someone;
- Reassure them that what has happened is not their fault;
- Do not criticise the perpetrator;
- Explain what has to be done next and who has to be told;
- Record the information onto CPOMS;
- Do not include your opinion without stating it is your opinion;
- In addition speak directly to the DSL if the issue is urgent
- Consider seeking support for yourself and discuss this with the DSL as dealing with a disclosure can be distressing.

The DSL will assess the concern and, taking into account any other safeguarding information known about the child/young person, consider whether it suggests that the threshold of significant harm, or risk of significant harm, has been reached at which point they will make a referral to the MASH team. If the DSL is unsure whether the threshold has been met they will contact the **MASH Team** (Weekdays 8.45am- 5pm) 0161 253 5678.

Where the DSL believes that a child or young person may be at imminent and significant harm risk of harm they should call immediately **MASH Team**

(Weekdays 8.45am- 5pm) 0161 253 5678 or **Emergency Duty Team**
(outside office hours) 0161 253 6606. If an immediate police response is required, the DSL should request police assistance via **999**.

Where a safeguarding concern does not meet the threshold for social care, the DSL should record how this decision has been reached and should consider whether additional needs of the child have been identified that might be met by a coordinated offer of early help.

School staff might be required to contribute to multi-agency plans to provide additional support to children. This might include attendance at child protection conferences or core group meetings. The school is committed to providing as much relevant up to date information about the child as possible, including submitting reports for child protection conference where possible in advance of the meeting.

Where reasonably possible, the school is committed to obtaining more than one emergency contact number for each pupil.

School staff must ensure that they are aware of the procedure to follow when a child goes missing from education.

15. Information sharing, record keeping and confidentiality

Information sharing is vital in identifying and tackling all forms of abuse. As part of meeting a child's needs, the school understands that it is critical to recognise the importance of information sharing between professionals and local agencies and will contribute to multi-agency working in line with Working Together to Safeguard Children.

Where there are concerns about the safety of a child, the sharing of information in a timely and effective manner between organisations can reduce the risk of harm. Whilst the GDPR / Data Protection Act 2018 places duties on organisations and individuals to process personal information fairly and lawfully, it is not a barrier to sharing information where the failure to do so would result in a child or vulnerable adult being placed at risk of harm. Similarly, human rights concerns, such as respecting the right to a private and family life would not prevent sharing where there are real safeguarding concerns.

Well-kept records are essential to good child protection practice. All concerns, discussions and decisions made and the reasons for those decisions should be recorded in writing. If in doubt about recording requirements, staff should discuss with the DSL.

The school recognises that confidentiality should be maintained in respect of all matters relating to child protection. Information on individual child protection cases may be shared by the DSL or alternate DSL with other relevant members of staff. This will be on a 'need to know' basis and where it is in the child's best interests to do so.

A member of staff must never guarantee confidentiality to anyone about a safeguarding concern (including parents / carers or pupils), or promise a child to keep a secret which might compromise the child's safety or wellbeing.

²The School will always undertake to share its intention to refer a child to Social Care with their parents /carers unless to do so could put the child at greater risk of harm, or impede a criminal investigation.

16. Managing allegations made against members of staff or volunteers

An allegation is any information which indicates that a member of staff /volunteer may have:

- Behaved in a way that has harmed a child, or may have harmed a child;
- Possibly committed a criminal offence against or related to a child; or
- Behaved towards a child or children in a way that indicates he/she may pose a risk of harm to children.
-

This applies to any child the member of staff/volunteer has contact with in their personal, professional or community life. It also applies regardless of whether the alleged abuse took place in our school.

If any member of staff has concerns that a colleague or volunteer might pose a risk to children, it is their duty to report these to the headteacher. Where the concerns or allegations are about the headteacher, these should be referred to the Chair of the IEB.

The headteacher/Chair of IEB should report the concern to the Local Authority Designated Officer – Mark Gay 0161 253 5342, M.Gay@bury.gov.uk . All allegations must be managed in line with the statutory guidance in Part 4 of KCSIE.

17. Whistleblowing

The IEB recognises that children cannot be expected to raise concerns in an environment where staff fail to do so.

Whistleblowing is ‘making a disclosure in the public interest’ and occurs when a worker (or member of the wider school community) raises a concern about danger or illegality that affects others, for example, pupils in the school or members of the public.

All staff should be aware of their duty to raise concerns, where they exist, about the management of child protection, which may include the attitude or actions/inactions of colleagues, poor or unsafe practice and potential failures in the school’s safeguarding arrangements.

The IEB would wish for everyone in the school community to feel able to report any child protection/safeguarding concerns through existing procedures within school, including the school’s own whistleblowing procedure.

18. Local safeguarding partnership arrangements

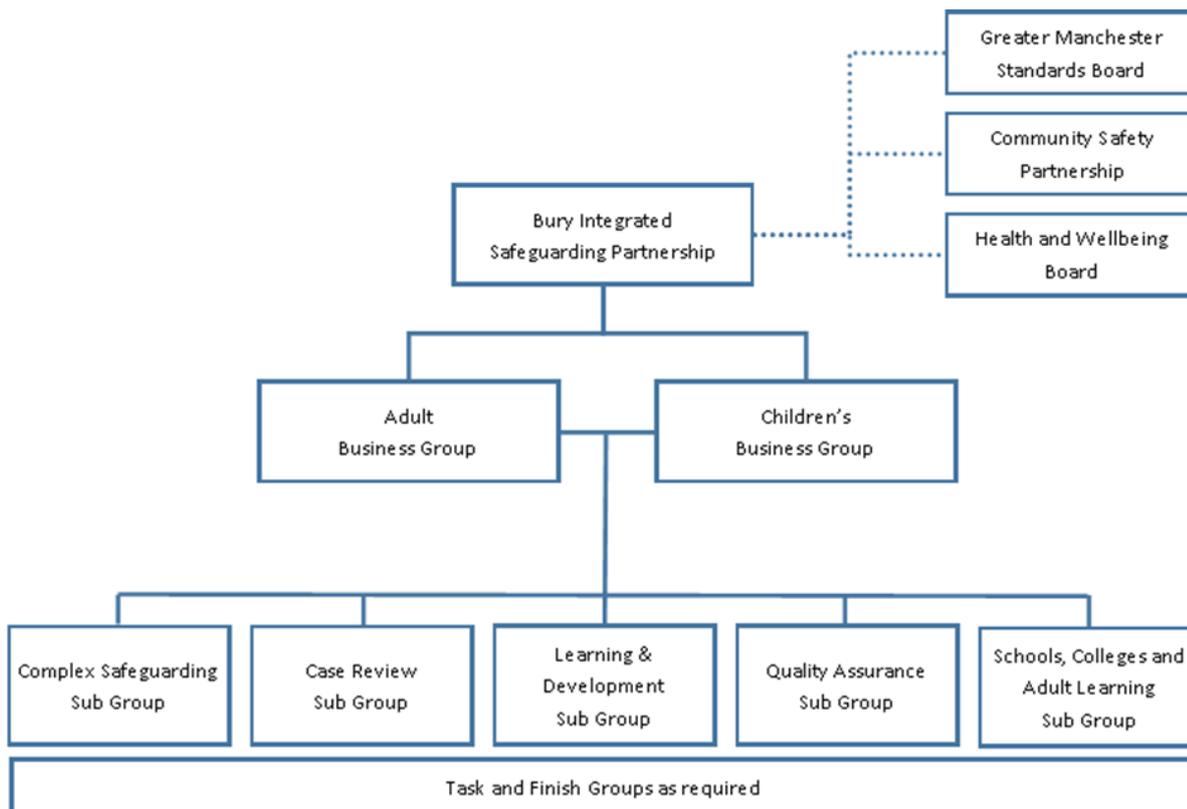

School has a pivotal role to play in multi-agency safeguarding arrangements. The IEB should ensure that the school contributes to multi-agency working in line with statutory guidance Working Together to Safeguard Children. It is especially important that school understands their role in the new safeguarding partner arrangements.

² N.B. The exception to this process will be in those cases of known FGM where there is a mandatory requirement for the teacher to report directly to the police, although the DSL should also be made aware.

The Bury Safeguarding Children Board is being replaced on the 29 September 2019 by the new Bury Integrated Safeguarding Partnership (BISP).

The change in oversight of multi-agency safeguarding arrangements was defined in the Children and Social Work Act 2017 and it has some implications for agencies who deliver services to children. In Bury it has been decided that BISP will combine the adult and children's safeguarding functions and as such will be led by the three named statutory safeguarding partners – the Local Authority (Adults and Children's services), Greater Manchester Police and the Bury Clinical Commissioning Group.

Bury Integrated Safeguarding Partnership Structure:

Further information can be found at :

<https://burysafeguardingpartnership.bury.gov.uk/CHttpHandler.ashx?id=20245&p=0>

Appendix A

Further information on specific safeguarding issues (source: Annex A, KCSIE for full details)

Children with special educational needs and disabilities

Children with special educational needs and disabilities (SEN) can face additional safeguarding challenges. Governing bodies and proprietors should ensure that all staff are aware that additional barriers can exist when recognising abuse and neglect in this group of children. These can include:

- Assumptions that indicators of possible abuse such as behaviour, mood and injury relate to the child's disability without further exploration.
- Being more prone to peer group isolation than other children
- The potential for children with SEN and disabilities being disproportionately impacted by behaviours such as bullying, without outwardly showing any signs
- Communication barriers and difficulties overcoming these barriers

The school will consider extra pastoral support for children with SEN and disabilities to address these challenges.

The use of reasonable force in schools and colleges

There are circumstances when it is appropriate for staff in schools and colleges to use reasonable force to safeguard children and young people. The term 'reasonable force' covers the broad range of actions used by staff that involve a degree of physical contact to control or restrain children. This can range from guiding a child to safety by their arm to more extreme circumstances such as breaking up a fight or where a young person needs to be restrained to prevent violence or injury.

'Reasonable' in these circumstances means using no more force than is needed. The use of force may involve either passive physical contact such as standing between pupils or blocking a pupil's path, or active physical contact such as leading a pupil by the arm out of the classroom.

The school will not adopt a 'no contact' policy as this may leave staff unable to fully support and protect children and young people. The school will adopt a sensible policy which will allow and support staff to make appropriate physical contact.

When using reasonable force to risks presented by incidents involving children with SEND or disabilities or with medical conditions, schools will consider drawing up individual behaviour plans for more vulnerable children which will be agreed with parents/carers.

Children missing from education

All staff should be aware that children going missing, particularly repeatedly, can act as a vital warning sign of a range of safeguarding possibilities. This may include abuse and neglect, which may include sexual abuse or exploitation and child criminal exploitation. It may indicate mental health problems, risk of substance abuse, risk of travelling to conflict zone, risk of female genital mutilation or risk of forced marriage. Early intervention is necessary to identify the existence of any underlying safeguarding risk and to help prevent the risks of a child going missing in future. Staff should be aware of their school or college's unauthorised absence and children missing from education procedures.

Child sexual exploitation

Child sexual exploitation is a form of sexual abuse. It occurs when an individual or group takes advantage of an imbalance of power to coerce, manipulate or deceive a child or young person under the age of 18 into sexual activity (a) in exchange for something the victim needs or wants, and/or (b) for the financial advantage or increased status of the perpetrator or facilitator. The victim may have been sexually exploited even if the sexual activity appears consensual. Child sexual

exploitation does not always involve physical contact: it can also occur through the use of technology. Like all forms of child sex abuse, child sexual exploitation:

- can affect any child or young person (male or female) under the age of 18 years, including 16 and 17 year olds who can legally consent to have sex
- can still be abuse even if the sexual activity appears consensual
- can include both contact (penetrative and non-penetrative acts) and non-contact sexual activity
- can take place in person or via technology, or a combination of both
- can involve force and/or enticement-based methods of compliance and may, or may not, be accompanied by violence or threats of violence
- may occur without the child or young person's immediate knowledge (e.g. through others copying videos or images they have created and posted on social media)
- Can be perpetrated by individuals or groups, males or females, and children or adults. The abuse can be a one-off occurrence or a series of incidents over time, and range from opportunistic to complex organised abuse; and
- Is typified by some form of power imbalance in favour of those perpetrating the abuse. Whilst age may be the most obvious, this power imbalance can also be due to a range of other factors including gender, sexual identity, cognitive ability, physical strength, status, and access to economic or other resources.

Child criminal exploitation: county lines

Criminal exploitation of children is a geographically widespread form of harm that is a typical feature of county lines criminal activity: drug networks or gangs, groom and exploit children and young people to carry drugs and money from urban areas to suburban and rural areas, market and seaside towns. Key to identifying potential involvement in county lines are missing episodes, when the victim may have been trafficked for the purpose of transporting drugs and a referral to the National Referral Mechanism³ should be considered. Like other forms of abuse and exploitation, county lines exploitation:

- can affect any child or young person (male or female) under the age of 18 years
- can affect any vulnerable adult over the age of 18 years
- can still be exploitation even if the activity appears consensual
- can involve force and/or enticement-based methods of compliance and is often accompanied by violence or threats of violence
- can be perpetrated by individuals or groups, males or females, and young people or adults; and
- Is typified by some form of power imbalance in favour of those perpetrating the exploitation. Whilst age may be the most obvious, this power imbalance can also be due to a range of other factors including gender, cognitive ability, physical strength, status, and access to economic or other resources.

Domestic abuse

The government definition of domestic violence and abuse is:

Any incident or pattern of incidents of controlling, coercive, threatening behaviour, violence or abuse between those aged 16 or over who are, or have been, intimate partners or family members regardless of gender or sexuality.

³ National crime agency human-trafficking, www.nationalcrimeagency.gov.uk

The abuse can encompass, but is not limited to:

- psychological
- physical
- sexual
- financial; and
- emotional

Exposure to domestic abuse and/or violence can have a serious, long lasting emotional and psychological impact on children. In some cases, a child may blame themselves for the abuse or may have had to leave the family home as a result. Domestic abuse affecting young people can also occur within their personal relationships, as well as in the context of their home life.

Operation Encompass –<http://www.operationencompass.org/> Operation Encompass is a police and education early information sharing partnership enabling schools to offer immediate support for children and young people experiencing domestic abuse. Information is shared by the police with a school's trained Key Adult prior to the start of the next school day after officers have attended a domestic abuse incident, thus enabling appropriate support to be given dependent upon the needs and wishes of the child.

Children experiencing domestic abuse are negatively impacted by this exposure; domestic abuse has been identified as an Adverse Childhood Experience and can lead to emotional, physical and psychological harm. Operation Encompass aims to mitigate this harm by enabling immediate support, making a child's day better and giving them a better tomorrow. Here at St Monica's RC High School we participate in Operation Encompass. Operation Encompass believes that children are victims of domestic abuse in their own right and should be acknowledged as such.

So-called 'honour-based' violence

So-called honour-based violence (HBV) encompasses incidents or crimes which have been committed to protect or defend the honour of the family and/or the community, including female genital mutilation (FGM), forced marriage, and practices such as breast ironing. Abuse committed in the context of preserving "honour" often involves a wider network of family or community pressure and can include multiple perpetrators.

It is important to be aware of this dynamic and additional risk factors when deciding what form of safeguarding action to take. All forms of HBV are abuse (regardless of the motivation) and should be handled and escalated as such. Professionals in all agencies, and individuals and groups in relevant communities, need to be alert to the possibility of a child being at risk of HBV, or already having suffered HBV.

Actions

If staff have a concern regarding a child that might be at risk of HBV or who has suffered from HBV, they should speak to the designated safeguarding lead (or deputy). As appropriate, they will activate local safeguarding procedures.

FGM

FGM comprises all procedures involving partial or total removal of the external female genitalia or other injury to the female genital organs. It is illegal in the UK and a form of child abuse with long-lasting harmful consequences.

FGM mandatory reporting duty for teachers

Where FGM has taken place, there has been a mandatory reporting duty placed on **teachers**⁴ Section 5B of the Female Genital Mutilation Act 2003 (as inserted by section 74 of the Serious Crime Act 2016) places a statutory duty upon **teachers** along with regulated health and social care professionals in England and Wales, to report to the police where they discover (either through disclosure by the victim or visual evidence) that FGM appears to have been carried out on a girl under 18.

Those failing to report such cases will face disciplinary sanctions. It will be rare for teachers to see visual evidence and they should **not** be examining pupils, but the same definition of what is meant by “to discover that an act of FGM appears to have been carried out” is used for all professionals to whom this mandatory reporting duty applies. Information on when and how to make a report can be found at:

https://www.gov.uk/government/uploads/system/uploads/attachment_data/file/525405/FGM_mandatory_reporting_map_A.pdf

Teachers **must** personally report to the police cases where they discover that an act of FGM appears to have been carried out.⁵ Unless the teacher has good reason not to, they should still consider and discuss any such case with the school or college’s designated safeguarding lead (or deputy) and involve children’s social care as appropriate.

The duty does not apply in relation to at risk or suspected cases (i.e. where the teacher does not discover that an act of FGM appears to have been carried out, either through disclosure by the victim or visual evidence) or in cases where the woman is 18 or over.

Forced marriage

Forcing a person into marriage is a crime in England and Wales. A forced marriage is one entered into without the full and free consent one or both parties and where violence, threats or any other form of coercion is used to cause a person to enter into a marriage. Threats can be physical or emotional and psychological. A lack of full and free consent can be where a person does not consent or where they cannot consent (if they have learning disabilities, for example.) Nevertheless, some communities use religion and culture as a way to coerce a person into marriage. Schools and colleges can play an important role in safeguarding children from forced marriage.

Preventing radicalisation

Children are vulnerable to extremist ideology and radicalisation. Similar to protecting children from other forms of harm and abuse, protecting children from this risk should be a part of a school’s or college’s safeguarding approach.

Extremism⁶ is the vocal or active opposition to our fundamental values, including the rule of law, individual liberty and the mutual respect and tolerance of different faiths and beliefs. This also includes calling for the death of members of the armed forces.

⁴ Under Section 5B(11)(a) of the Female Genital Mutilation Act 2003, “teacher” means, in relation to England, a person within section 141A(1) of the Education Act 2002 (persons employed or engaged to carry out teaching work at schools and other institutions in England).

⁵ Section 5B(6) of the Female Genital Mutilation Act 2003 states teachers need not report a case to the police if they have reason to believe that another teacher has already reported the case.

⁶ As defined in the Government’s Counter Extremism Strategy.

Radicalisation⁷ refers to the process by which a person comes to support terrorism and extremist ideologies associated with terrorist groups.

There is no single way of identifying whether a child is likely to be susceptible to an extremist ideology. Background factors combined with specific influences such as family and friends may contribute to a child's vulnerability. Similarly, radicalisation can occur through many different methods (such as social media) and settings (such as the internet).

However, it is possible to protect vulnerable people from ideology and intervene to prevent those at risk of radicalisation being radicalised. As with other safeguarding risks, staff should be alert to changes in children's behaviour which could indicate that they may be in need of help or protection. Staff should use their judgement in identifying children who may be at risk of radicalisation and act proportionately which may include the designated safeguarding lead (or deputy) making a referral to the Channel programme.

The Prevent duty

All schools and colleges are subject to a duty under section 26 of the CounterTerrorism and Security Act 2015 (the CTSA 2015), in the exercise of their functions, to have "due regard⁸ to the need to prevent people from being drawn into terrorism"⁹. This duty is known as the Prevent duty.

The Prevent duty should be seen as part of schools' and colleges' wider safeguarding obligations. Designated safeguarding leads and other senior leaders should familiarise themselves with the Revised Prevent duty guidance: for England and Wales, especially paragraphs 57-76 which are specifically concerns with schools (and also covers childcare). The guidance is set out in terms of four general themes: Risk assessment, working in partnership, staff training, and IT policies.

<https://www.gov.uk/government/publications/prevent-duty-guidance>

Additional support

The Department for Education has published advice for schools on the Prevent duty. The advice is intended to complement the Prevent guidance and signposts other sources of advice and support.

<https://www.gov.uk/government/publications/protecting-children-fromradicalisation-the-prevent-duty>

There is additional guidance: Prevent duty guidance: for further education institutions in England and Wales that applies to colleges.

Educate Against Hate, a website launched by Her Majesty's Government has been developed to support and equip school and college leaders, teachers, and parents with information, tools and resources (including on the promotion of fundamental British values) to help recognise and address extremism and radicalisation in young people. The platform provides information on and access to training resources for teachers, staff and school and college leaders, some of which are free such as Prevent e-learning, via the Prevent Training catalogue. <https://educateagainsthate.com>

⁷ As defined in the Revised Prevent Duty Guidance for England and Wales

⁸ According to the Prevent duty guidance 'having due regard' means that the authorities should place an appropriate amount of weight on the need to prevent people being drawn into terrorism when they consider all the other factors relevant to how they carry out their usual functions.

⁹ "Terrorism" for these purposes has the same meaning as for the Terrorism Act 2000 (section 1(1) to (4) of that Act).

Channel

Channel is a programme which focuses on providing support at an early stage to people who are identified as being vulnerable to being drawn into terrorism. It provides a mechanism for schools to make referrals if they are concerned that an individual might be vulnerable to radicalisation. An individual's engagement with the programme is entirely voluntary at all stages. Guidance on Channel is available at: <https://www.gov.uk/government/publications/channel-guidance>

The school or college's Designated Safeguarding Lead (and any deputies) should be aware that as a Channel partner, the school or college may be asked to attend a Channel panel to discuss the individual referred to determine whether they are vulnerable to being drawn into terrorism and consider the appropriate support required.

Peer on peer abuse

Children can abuse other children. This is generally referred to as peer on peer abuse and can take many forms. This can include (but is not limited to):

- bullying (including cyberbullying);
- physical abuse such as hitting, kicking, shaking, biting, hair pulling, or otherwise causing physical harm;
- sexual violence, such as rape, assault by penetration and sexual assault;
- sexual harassment, such as sexual comments, remarks, jokes and online sexual harassment, which may be stand-alone or part of a broader pattern of abuse;
- upskirting, which typically involves taking a picture under a person's clothing without them knowing, with the intention of viewing their genitals or buttocks to obtain sexual gratification, or cause the victim humiliation, distress or alarm;
- sexting (also known as youth produced sexual imagery);
- initiating/hazing type violence and rituals.

Serious Violence

All staff should be aware of indicators, which may signal that children are at risk from, or are involved with serious violent crime. These may include increased absence from school, a change in friendships or relationships with older individuals or groups, a significant decline in performance, signs of self-harm or a significant change in wellbeing, or signs of assault or unexplained injuries. Unexplained gifts or new possessions could also indicate that children have been approached by, or are involved with, individuals associated with criminal networks or gangs.

Sexual violence and sexual harassment between children in schools and colleges

Context

Sexual violence and sexual harassment can occur between two children of **any** age and sex. It can also occur through a group of children sexually assaulting or sexually harassing a single child or group of children.

Children who are victims of sexual violence and sexual harassment will likely find the experience stressful and distressing. This will, in all likelihood, adversely affect their educational attainment. Sexual violence and sexual harassment exist on a continuum and may overlap, they can occur online and offline (both physical and verbal) and are never acceptable. It is important that **all** victims are taken seriously and offered appropriate support. Staff should be aware that some groups are potentially more at risk. Evidence shows girls, children with SEND and LGBT children are at greater risk.

Staff should be aware of the importance of:

- making clear that sexual violence and sexual harassment is not acceptable, will never be tolerated and is not an inevitable part of growing up;
- not tolerating or dismissing sexual violence or sexual harassment as “banter”, “part of growing up”, “just having a laugh” or “boys being boys”; and
- Challenging behaviours (potentially criminal in nature), such as grabbing bottoms, breasts and genitalia, flicking bras and lifting up skirts.

Dismissing or tolerating such behaviours risk normalising them.

What is sexual violence and sexual harassment?

Sexual violence

It is important that school and college staff are aware of sexual violence and the fact children can, and sometimes do, abuse their peers in this way. When referring to sexual violence we are referring to sexual offences under the Sexual Offences Act 2003¹⁰ as described below:

Rape: A person (A) commits an offence of rape if: he intentionally penetrates the vagina, anus or mouth of another person (B) with his penis, (B) does not consent to the penetration and (A) does not reasonably believe that (B) consents.

Assault by Penetration: A person (A) commits an offence if: s/he intentionally penetrates the vagina or anus of another person (B) with a part of her/his body or anything else, the penetration is sexual, (B) does not consent to the penetration and (A) does not reasonably believe that (B) consents.

Sexual Assault: A person (A) commits an offence of sexual assault if: s/he intentionally touches another person (B), the touching is sexual, (B) does not consent to the touching and (A) does not reasonably believe that (B) consents.

What is consent?¹¹ Consent is about having the freedom and capacity to choose. Consent to sexual activity may be given to one sort of sexual activity but not another, e.g. to vaginal but not anal sex or penetration with conditions, such as wearing a condom. Consent can be withdrawn at any time during sexual activity and each time activity occurs. Someone consents to vaginal, anal or oral penetration only if s/he agrees by choice to that penetration and has the freedom and capacity to make that choice.¹⁴

Sexual harassment

When referring to sexual harassment we mean ‘unwanted conduct of a sexual nature’ that can occur online and offline. When we reference sexual harassment, we do so in the context of child on child sexual harassment.

Sexual harassment is likely to: violate a child’s dignity, and/or make them feel intimidated, degraded or humiliated and/or create a hostile, offensive or sexualised environment.

Whilst not intended to be an exhaustive list, sexual harassment can include:

- sexual comments, such as: telling sexual stories, making lewd comments, making sexual remarks about clothes and appearance and calling someone sexualised names;
- sexual “jokes” or taunting;

¹⁰ www.legislation.gov.uk

¹¹ It is important school and college staff (and especially designated safeguarding leads and their deputies) understand consent. This will be especially important if a child is reporting they have been raped, www.disrespectnobody.co.uk ¹⁴ PSHE teaching about consent (www.pshe-association.org.uk) from the PSHE association provides advice and lesson plans to teach consent at Key Stage 3 and 4.

- physical behaviour, such as: deliberately brushing against someone, interfering with someone's clothes (schools and colleges should be considering when any of this crosses a line into sexual violence – it is important to talk to and consider the experience of the victim) and displaying pictures, photos or drawings of a sexual nature; and
- Online sexual harassment. This may be standalone, or part of a wider pattern of sexual harassment and/or sexual violence.¹² It may include:
 - non-consensual sharing of sexual images and videos;
 - sexualised online bullying;
 - unwanted sexual comments and messages, including, on social media; and
 - sexual exploitation; coercion and threats

The response to a report of sexual violence or sexual harassment

The initial response to a report from a child is important. It is essential that all victims are reassured that they are being taken seriously and that they will be supported and kept safe. A victim should never be given the impression that they are creating a problem by reporting sexual violence or sexual harassment. Nor should a victim ever be made to feel ashamed for making a report.

If staff have a concern about a child or a child makes a report to them, they should follow the referral process as set out from paragraph 23 in Part 1 of KCSIE. As is always the case, if staff are in any doubt as to what to do they should speak to the designated safeguarding lead (or a deputy).
