

# Examination Results

St Monica's seeks to give its students the means to achieve in life and do well. As a non-selective Catholic high school, catering for the whole ability range, St Monica's has set demanding targets for itself. Achieving these targets for all students across the ability range has been the highest priority in recent years and trends of results will vary slightly because of the nature of the intake of students. We also celebrate the high numbers of pupils staying in education or going into employment.

Student success	2019	2018	2017
Achieving English and Maths at Grade 5+	47%	47%	37%
Achieving English and Maths at Grade 4+	69%	71%	74%
