

AO2 ANNOATION GUIDE

Write 1 paragraph per sheet

Explain what medias you have used & what you have based your work on & why.

Link to your brief & theme/focus

Describe how you created the samples, the successes or difficulties you had – explain how you overcame any problems.

Talk about the most successful pieces you have created. Discuss how you will use this practice work to help you develop in to some design proposals

Mention anything you need to do ie. Practice certain methods or collect some more information, or do some more research?

You could a a small number next to each sample to help you refer to it in your written paragraph.

Examples of student work/presentation

PRESENTING AO2 WORK

Option 1 – x 2 - A2 sheets of work

Produce an A2 sheet of work for media samples inspired by **each artist** In this case each sheet should have 4-5 studies using different media You can work directly on the that samples (studies) merge or you can produce them separately & then mount them later

Option 2 – x 1 - A1 sheet of work

Produce an A1 sheet with samples that **relate to both artists** In this case the sheet should have 8-10 studies using different media You can work directly on the that samples (studies) merge or you can produce them separately & then mount them later

If you are stuck this is a good way to start!

Media Experimentation - a good way to start

Step 1: On an A3 piece of cartridge paper prepare X 6 different backgrounds to work on. See the examples below on my sheet. Choose backgrounds that link with your artist(s)

Step 2: Look at your artists work and consider what you would like to try out. This artist is: Dina Wakely

Step 3: Begin experimenting on top of your prepared surfaces. I ended up merging mine into a full piece of work!

If they merge you can always crop them down later

You have access to: Pencil, biro, fine liner, markers, inks, spray paint, tipex, photos, newsprint, thread, string /needle, trims, buttons, bleach, letter stencil & stamps, wax
